

2. Rx53 (assigned effector: SRE2)

ns against negative control (Rx53 + PvxCP)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

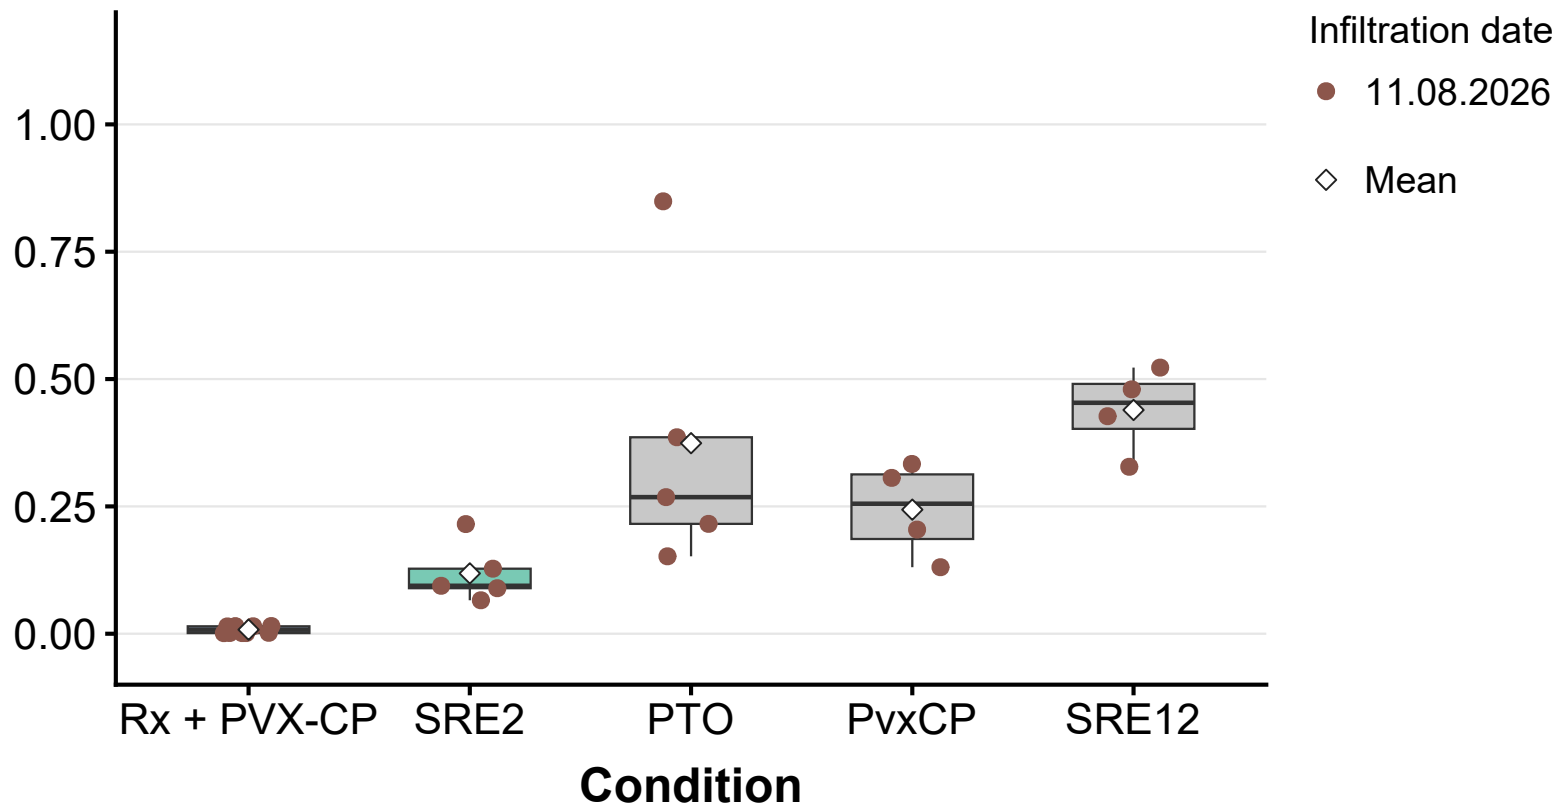

2. Rx57 (assigned effector: SRE2)

* against negative control (Rx57 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

2. Rx59 (assigned effector: SRE2)

ns against negative control (Rx59 + AvrSr35)

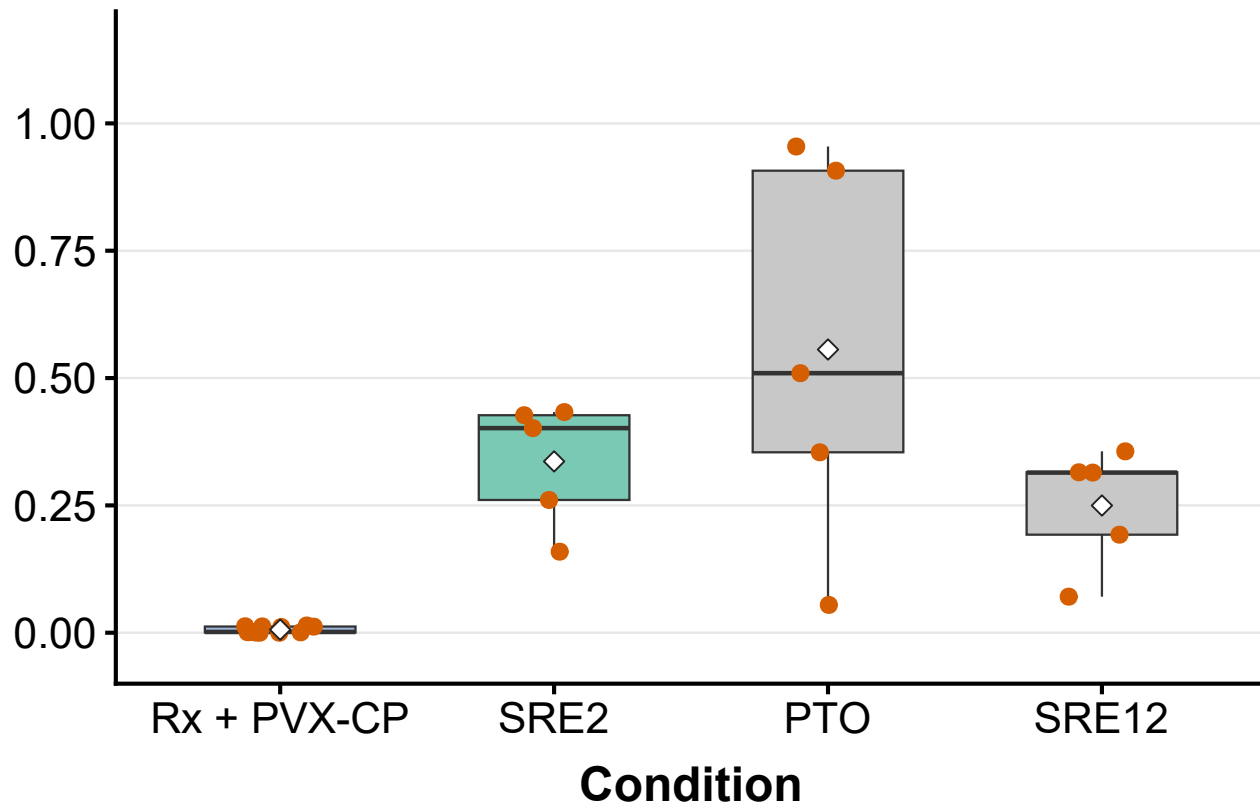

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

Infiltration date

● 04.08.2026

◇ Mean

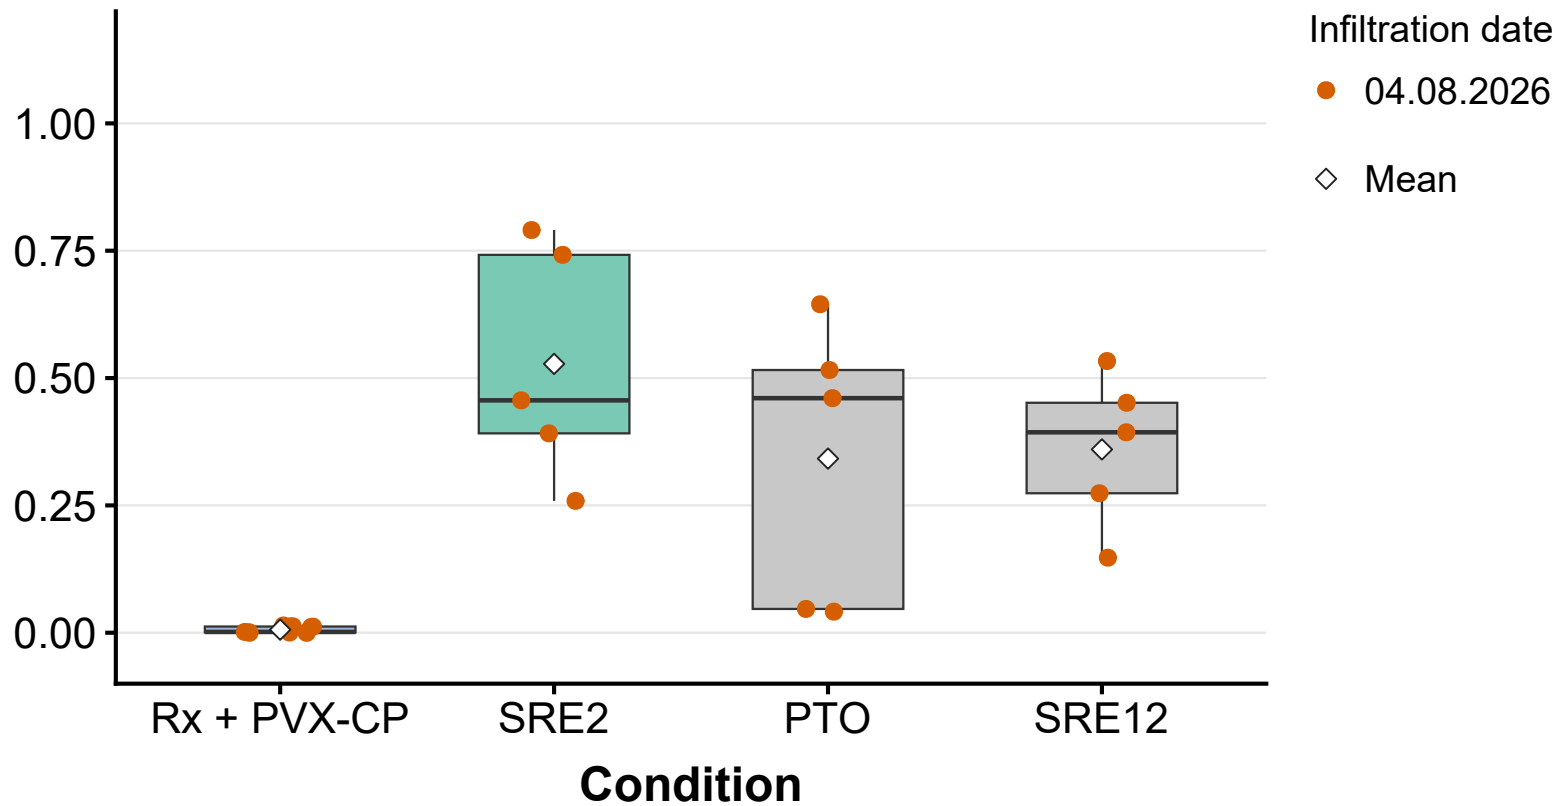

2. Rx60 (assigned effector: SRE2)

ns against negative control (Rx60 + AvrSr35)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

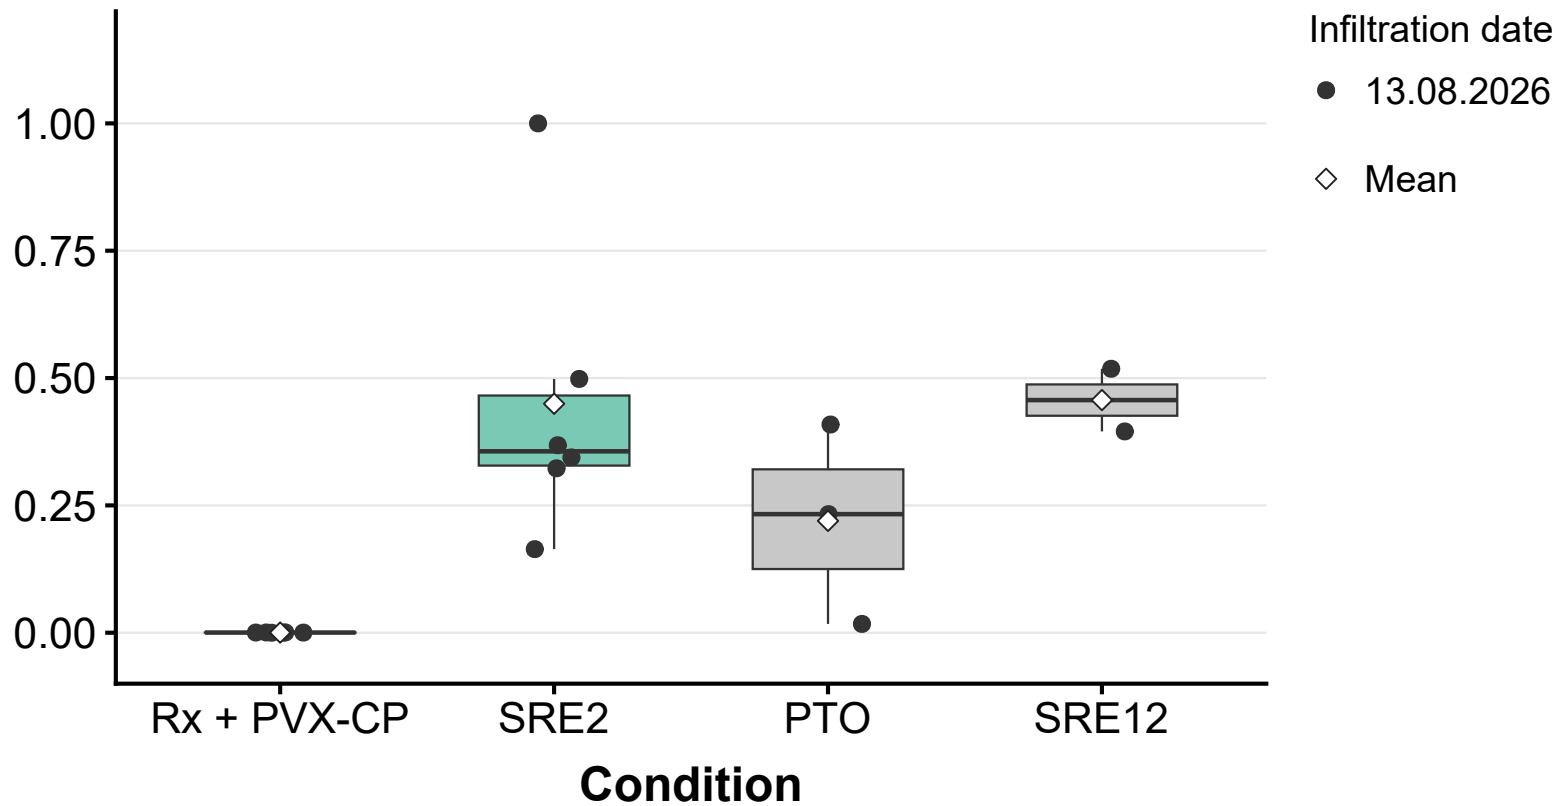

2. Rx61 (assigned effector: SRE2)

ns against negative control (Rx61 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

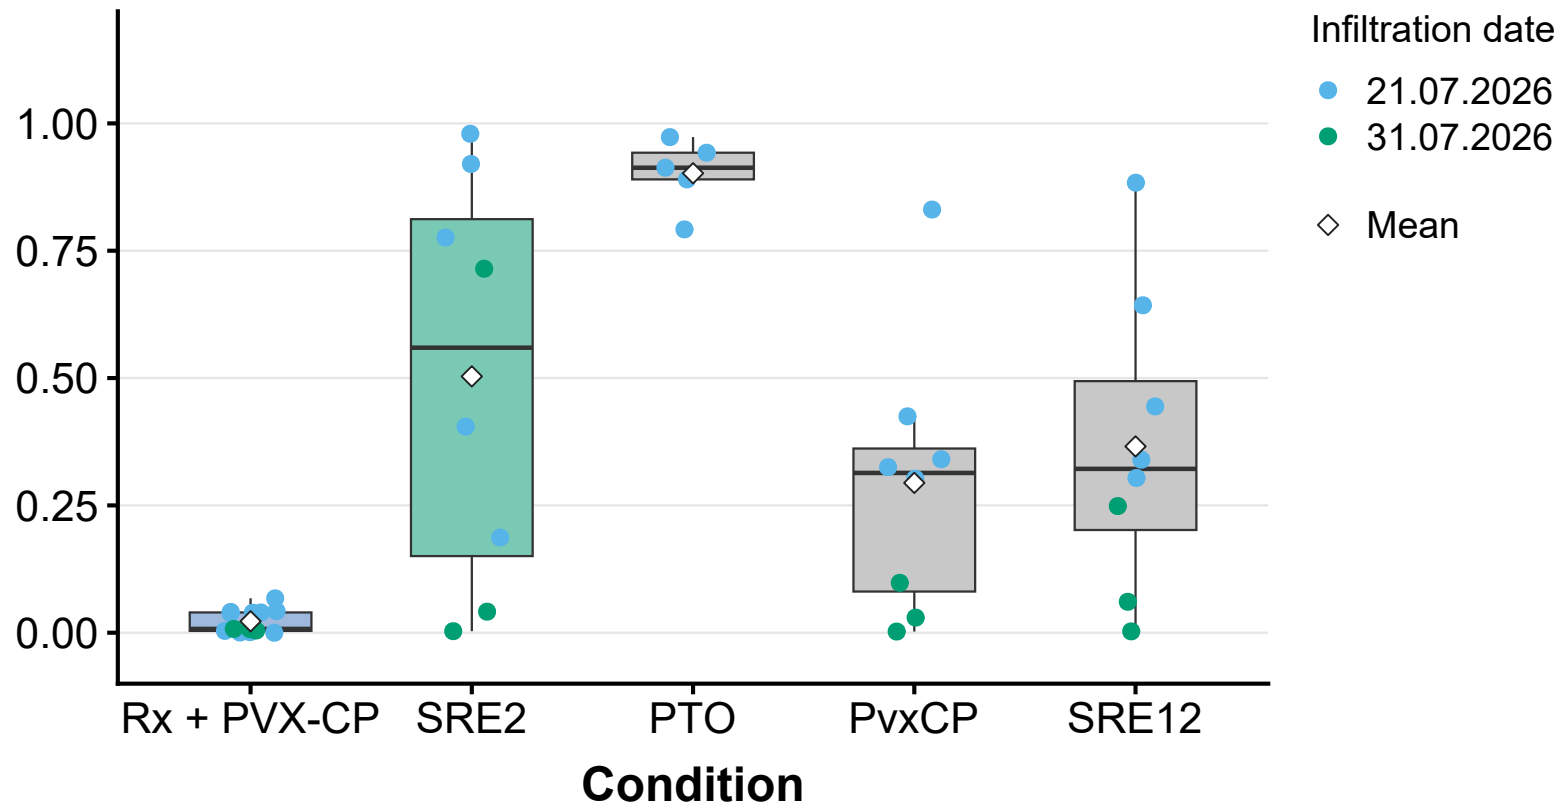

2. Rx62 (assigned effector: SRE2)

ns against negative control (Rx62 + AvrSr35)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

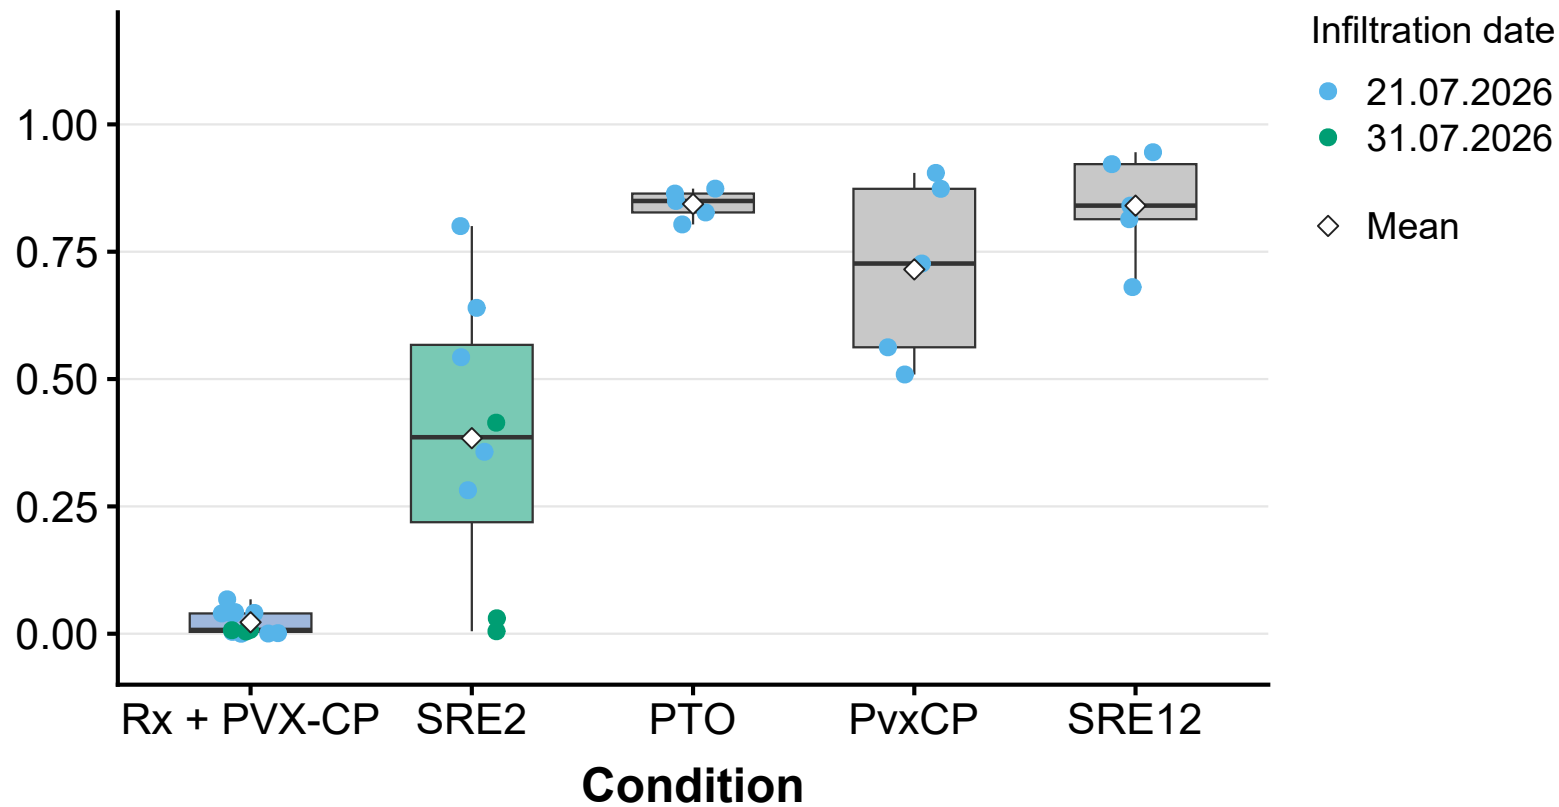

2. Rx63 (assigned effector: SRE2)

* against negative control (Rx63 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

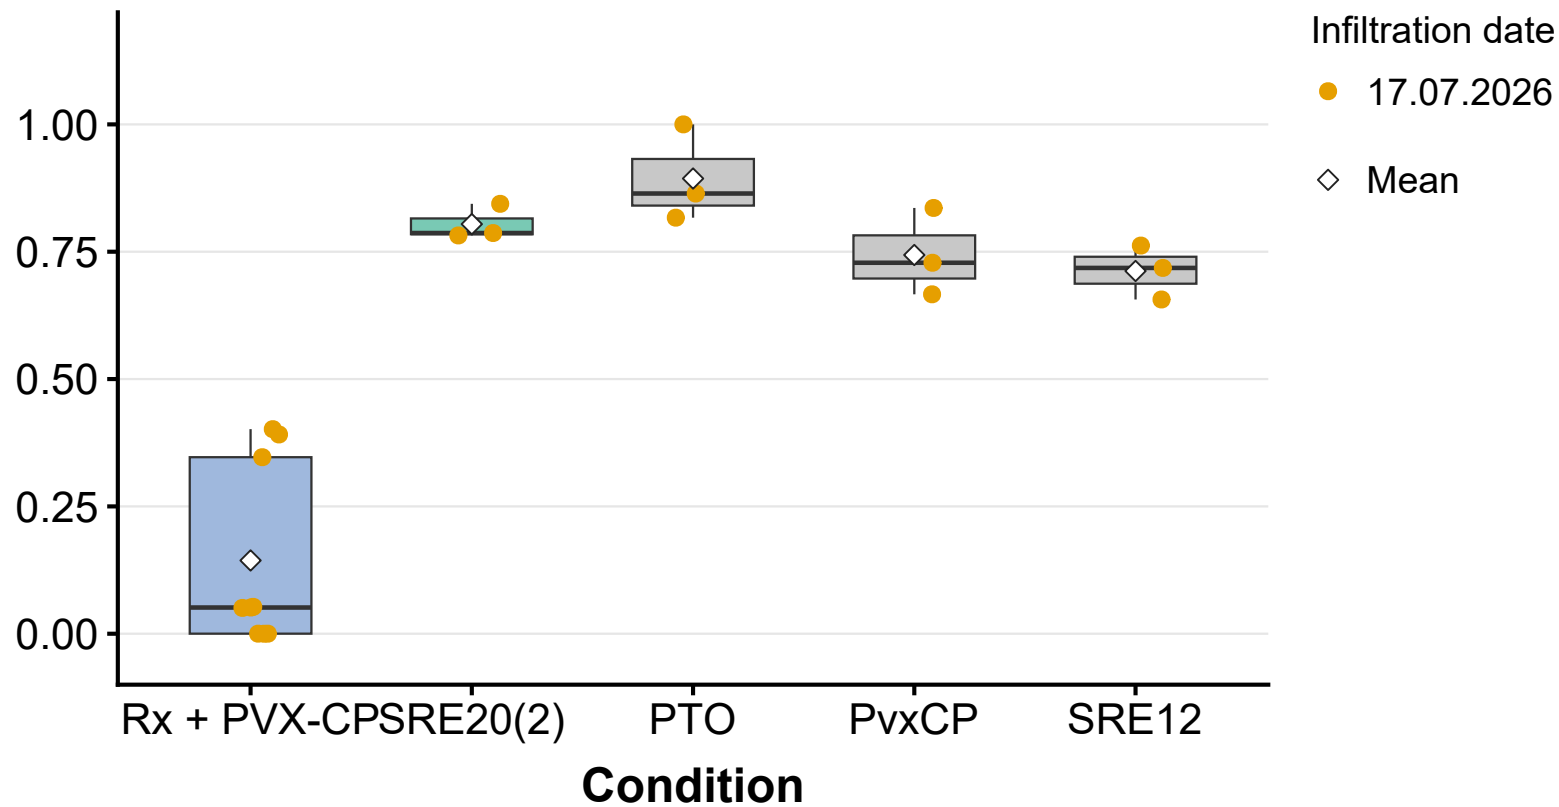

2. Rx66 (assigned effector: SRE20(2))

ns against negative control (Rx66 + PvxCP)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

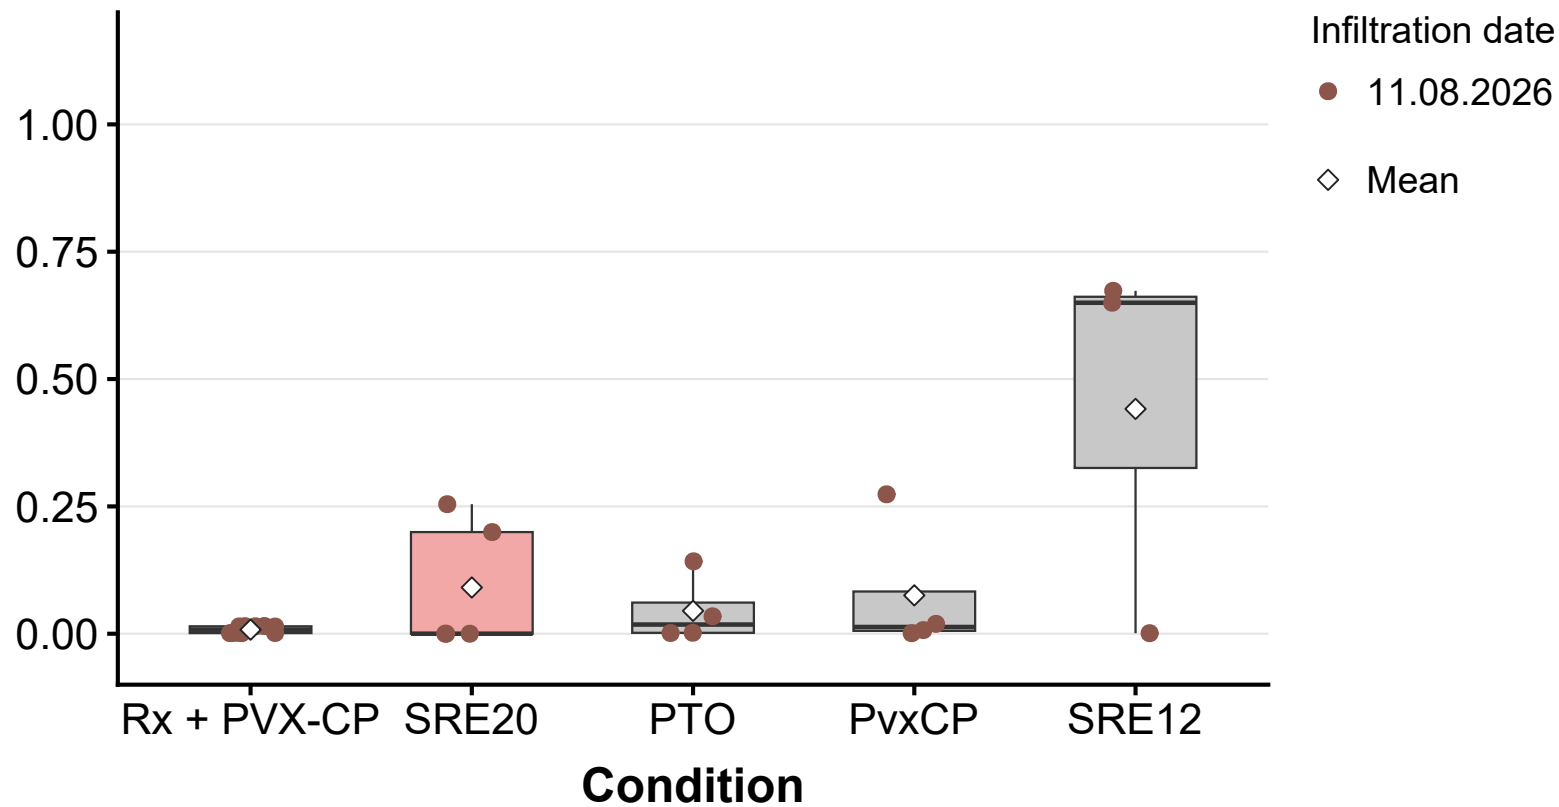

2. Rx68 (assigned effector: SRE20)

ns against negative control (Rx68 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

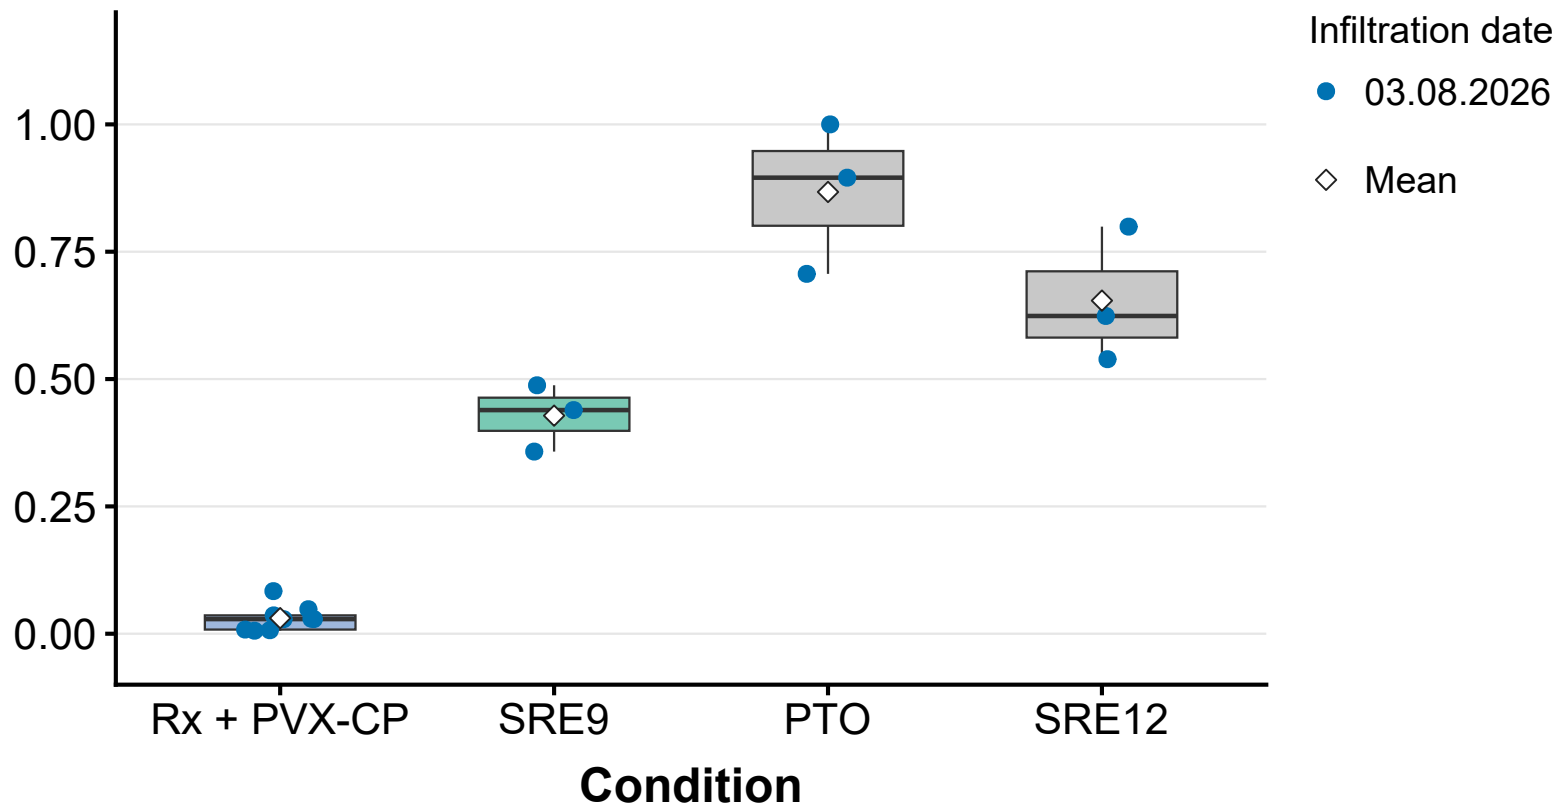

2. Rx188 (assigned effector: SRE9)

ns against negative control (Rx188 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

2. Rx190 (assigned effector: SRE9)

ns against negative control (Rx190 + SRE12)

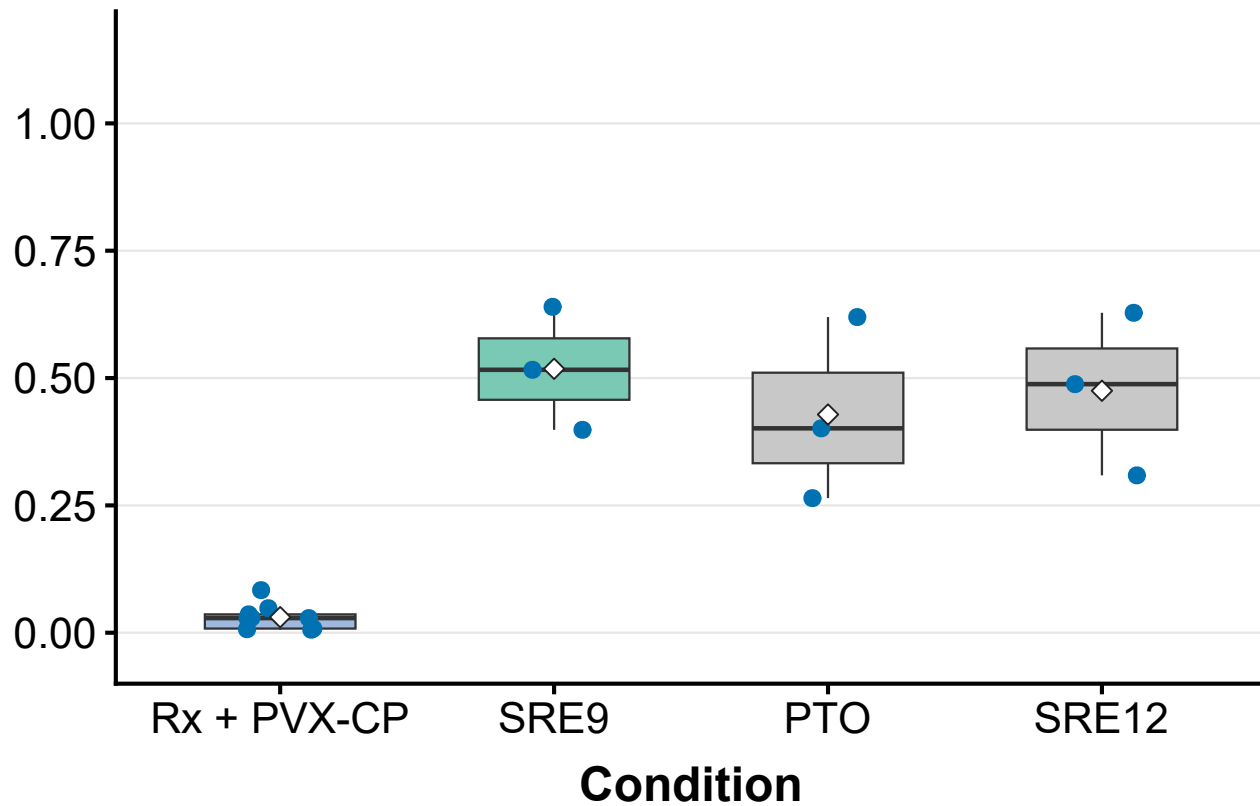

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

Infiltration date

● 03.08.2026

◇ Mean

2. Sr35-59 (assigned effector: SRE2)

ns against negative control (Sr35-59 + AvrSr35)

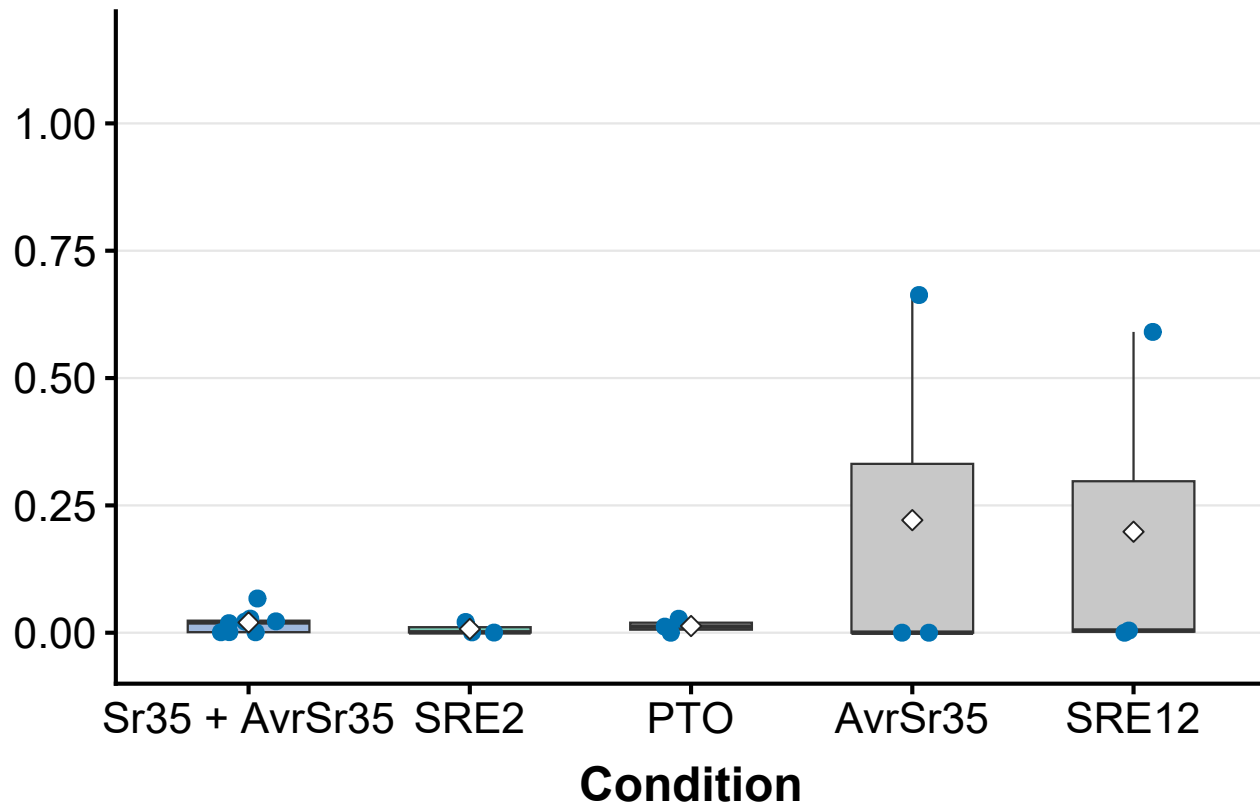

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

Infiltration date

● 03.08.2026

◇ Mean

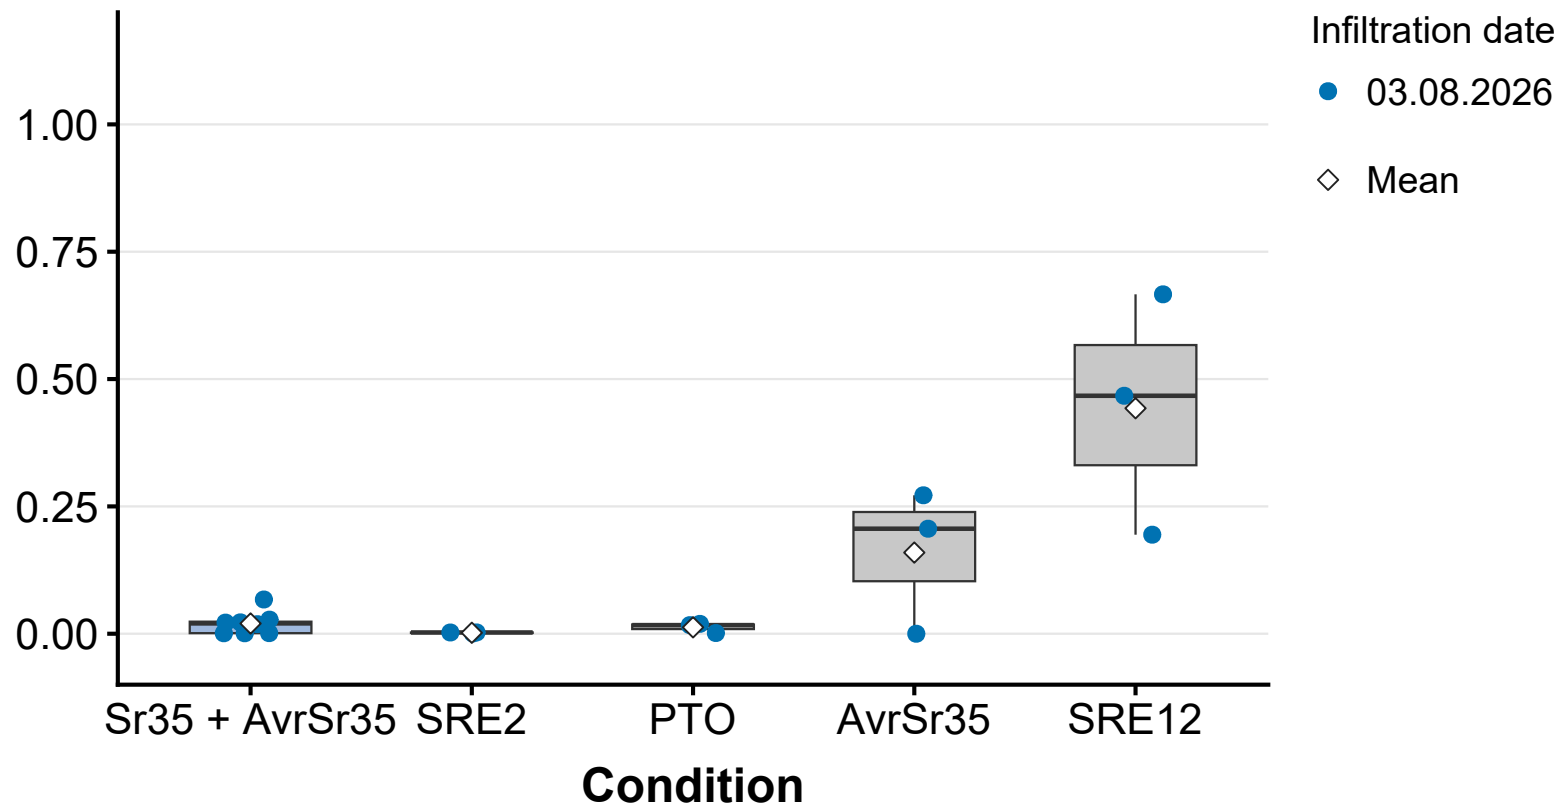

2. Sr35-60 (assigned effector: SRE2)

ns against negative control (Sr35-60 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

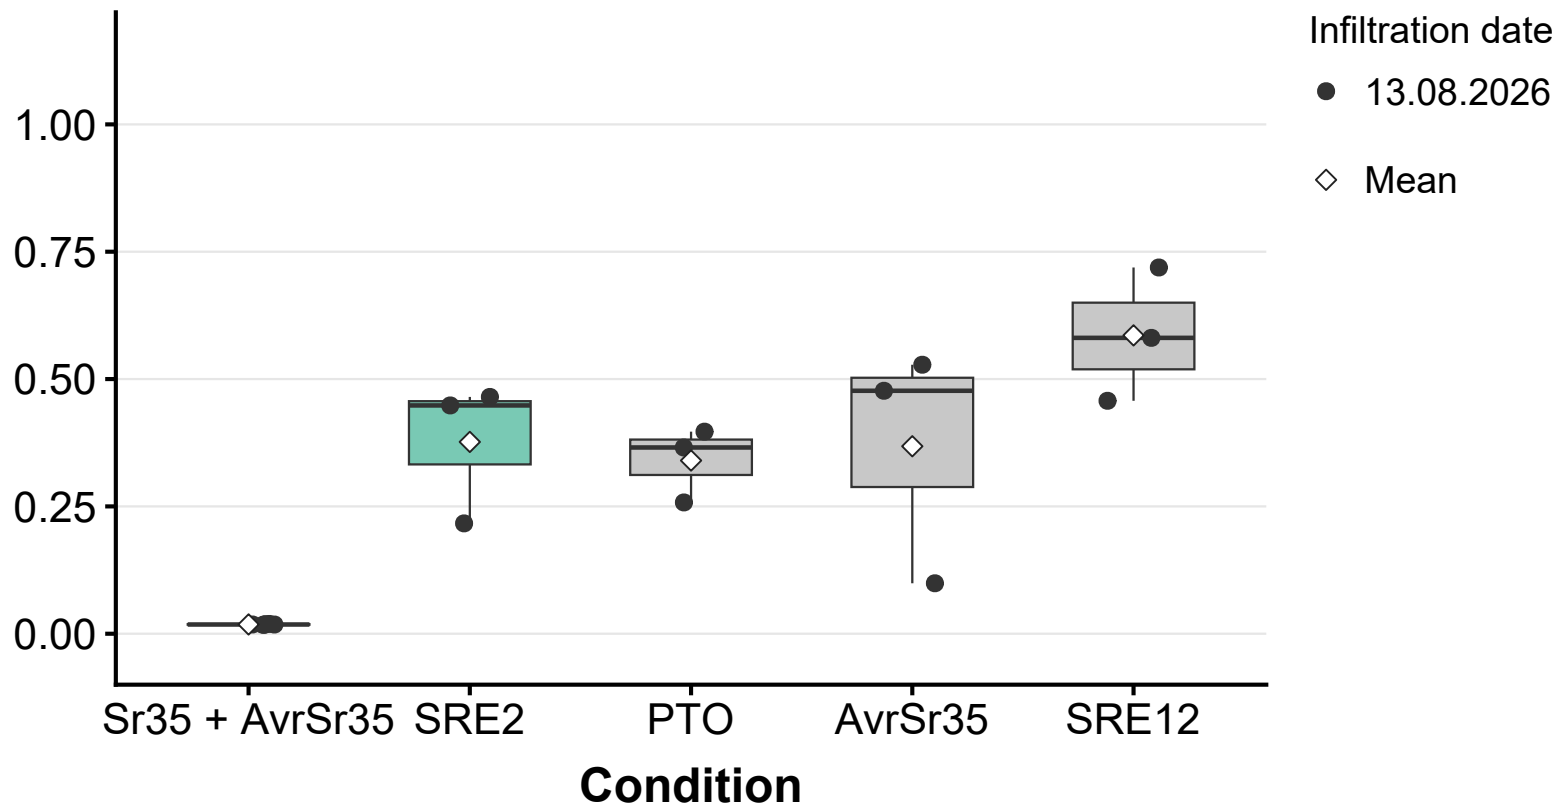

2. Sr35-61 (assigned effector: SRE2)

ns against negative control (Sr35-61 + SRE12)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

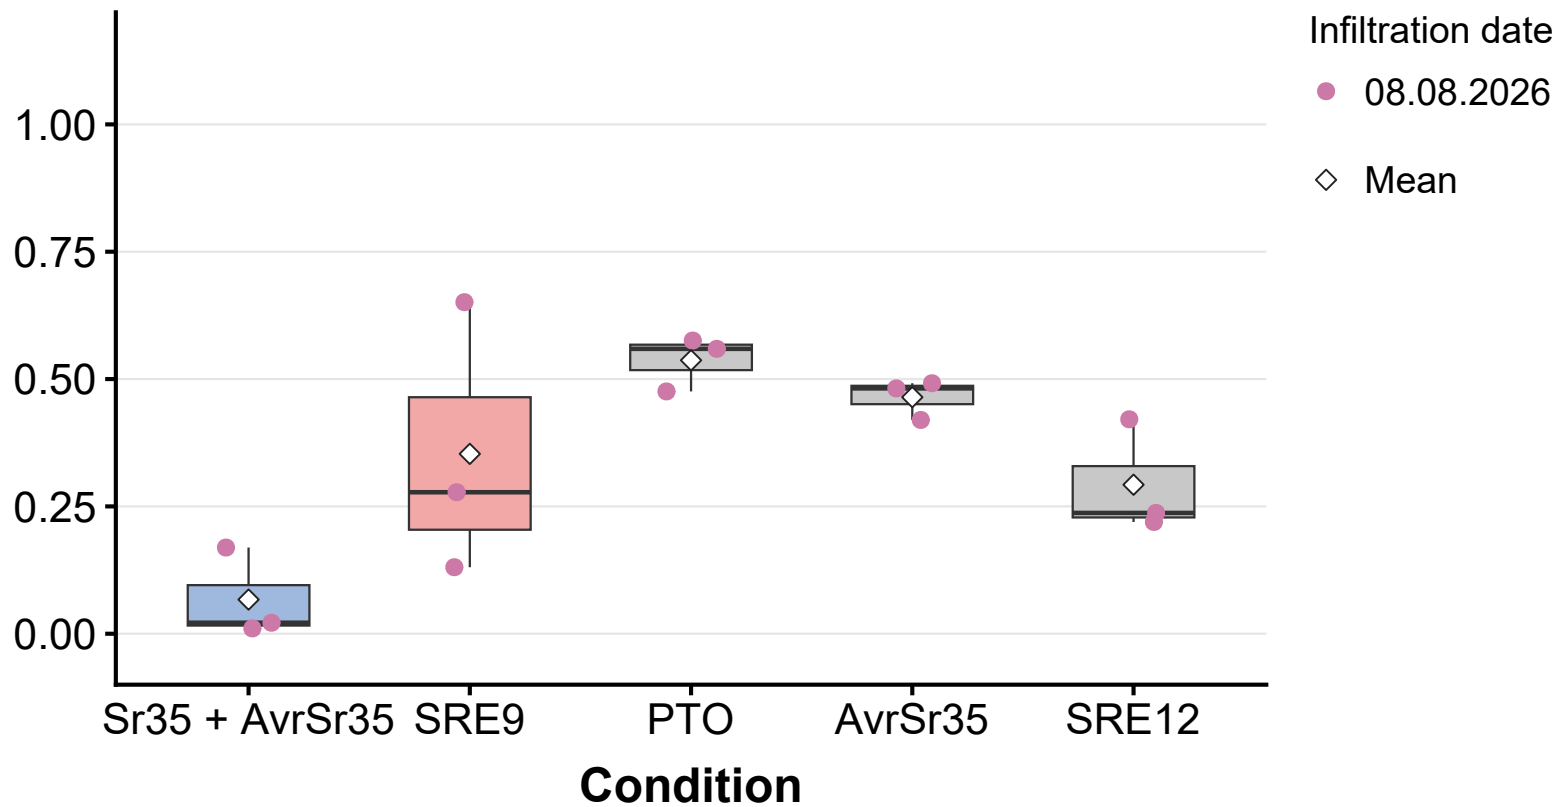

2. Sr35-190 (assigned effector: SRE9)

ns against negative control (Sr35-190 + AvrSr35)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)

2. Sr35-191 (assigned effector: SRE9)

ns against negative control (Sr35-191 + AvrSr35)

Welch's unpaired t-test, Benjamini-Hochberg adjusted (see Figure 1)

Normalised Chemiluminescence (0-1)
